

HACKNATION

Accelerate your Tech Path

Platform Overview

E-BOOK

ABOUT THE COMMUNITY PLATFORM

Hacknation is an initiative to build a community for tech-enthusiasts who have the potential to create a strong base in Software Programming/Development and are driven towards coding. Our aim is to bring all the Undergrad and Grad scholars to a platform through Gamification, Events, Bootcamps, Contests and Workshops to enhance the competitive capabilities of students.

UPCOMING EVENTS

Contest

An upcoming contest on Logical Reasoning where students from 1st year B-Tech CSE will be contesting in a competition for Visual Reasoning and other aptitude topics.

Student Ambassador Program

A program that brings out your Leadership skills along with an exposure to Marketing skills and hones your talent towards innovation and taking up ownership for an organisation. We are a group of young professionals, creating a platform for students providing a leadership opportunity.

Alum Talks

Success isn't about what you accomplish in your life its about what you inspire others to do. We believe you connect today to transform your tomorrow, its not just your mission its our wish for you. Hence we provide a platform for all the undergrads to connect with real life mentors through alumni connect program.

Hack To Win

Learn - Code - Implement

Introducing hack to win a series of Hackathon's aimed at empowering college grads and developers to resolve a unique problem statement.
